Qualifications:

- Bachelor's Degree in Mechanical Engineering from an accredited university
- 5 years building engineering design and construction of multi-disciplinary projects.
- EIT or LEED AP a plus
- Project experience in corporate/commercial/healthcare/education markets a plus.
- Resourceful team player possessing strong planning, organizational, and communication skills.
- Ability to work within project budgets and schedules.
- Ability to create Construction documents in AutoCad and Revit.

Responsibilities:

- Conduct field surveys.
- Prepare concept, schematic design, design development and construction documents.
- Conduct code research and incorporate applicable requirements into the design
- Conduct material research and compile project data for the project.
- Prepare project specifications.
- Communicate with project team and consultants and coordinate work
- Review Shop Drawings, respond to and track RFI's.
- Attend construction meetings, make periodic site observation visits
- Prepare and update punch lists as required.
- Maintain and archive electronic project files
- Prepare meeting agendas, minutes, and other project correspondence.
- Attend project meetings.

We offer competitive wages based on skills and experience as well as an excellent benefits package, including: Paid Time Off, medical, dental, vision, 401(k), pre-tax Flexible Spending Accounts, and more. Brinjac Engineering, Inc. is an Equal Opportunity Employer.

Must be local candidate authorized to work in the U.S.

Resumes can be sent to hresources@brinjac.com. Due to the larger volume of candidates, only qualified applicants will be contacted. No recruiters or phone calls please.
