Virtual ZOOM Course: 6:00 PM to 7:00 PM

**8" Deep - Long Span Deck for use in
Elevated Concrete Floor Applications**

Presented by
Douglas E. Bathurst

This course will provide an understanding of the attributes of 8" deep – long span deck. It will define the system, examine the overall installation process, explore the incorporation to various structural systems and define the benefits of the structural floor system. The seminar will also cover UL Fire Ratings and restrained vs unrestrained ratings.

**PSPE believes the "course" will be accepted for credit in
PA, NJ and other National Model states where courses do not require pre-approval.
This course has not been certified for credit in the State of NY.**
